

Hanford Joint Union High School District Presentation on Trustee Area Redistricting

Redistricting is the adjustment of trustee area boundaries every 10 years to reflect new census data. This is done to ensure that trustee area populations are equal, and that residents are appropriately represented.

We invite you to attend the presentation on redistricting! You will learn about the redistricting process and have the opportunity to provide input. You can stay informed on the redistricting process through the District's website: www.hjuhsd.k12.ca.us

Please join us!

Time:
6:00 PM

Date:
November 30, 2021

Location:
District Office
823 W. Lacey Blvd. Hanford, California

Redistricting will not change existing school attendance area boundaries.
